DEPARTMENT OF DEFENSE

Instrumentation Program for Tribal Colleges and Universities (TCUs)

Fiscal Year 2001

I. INTRODUCTION

The Department of Defense (DoD) announces a special competition for Fiscal Year 2001 for Tribal Colleges and Universities (TCUs). This initiative seeks to enhance programs and capabilities at Native American institutions through the acquisition of basic science laboratory and computer equipment as well as renovation of facilities to accommodate such equipment.

Fiscal Year 2001 funds for this initiative are expected total approximately \$3.0 million. All awards will be based on merit competition. Evaluations will be conducted by DoD scientists and engineers according to the evaluation factors listed in Section III. The Army Research Office (ARO) will make all awards under this program.

This entire announcement should be read carefully and thoroughly with special attention to instructions for proposal preparation and submission. Failure to follow instructions may result in rejection of the proposal. This program announcement is available on the ARO web site at <http://www.aro.army.mil> (select 'Funding Opportunities').

II. ELIGIBILITY

Only Tribal Colleges and Universities may compete for an award under this solicitation. This designation is covered under several Federal statutes. Institutions that meet the criteria are part of the minority institution list found at Appendix A (see designated column and footnote annotations of that Appendix). This list is compiled by the Office for Civil Rights, U.S. Department of Education, using enrollment data reported by postsecondary institutions to the National Center for Integrated Statistics and the Office for Civil Rights in the Integrated Postsecondary Education Data System (IPEDS) Fall enrollment survey, formerly called the Higher Education General Information Survey (HEGIS).

Questions concerning the list **must** be directed to the IPEDS Inquiry Line (202-205-9567) in the Office for Civil Rights, U.S. Department of Education, not to the Department of Defense.

Institutions submitting proposals should offer accredited degree- or certificate-granting programs. This program seeks to enhance academic capabilities among the tribal institutions and encourage Native American students to pursue higher education, particularly in areas of science, engineering and/or mathematics.

III. INSTRUMENTATION PROGRAM

A. GENERAL

The primary goals of this program are to improve the quality of academic programs at TCUs, especially in areas of science, engineering and/or mathematics, and to increase the number of graduates, especially Native American graduates, in these areas.

All TCUs are encouraged to submit a proposal to acquire instrumentation to strengthen their education programs, particularly in the areas of science, engineering and/or mathematics. This program is designed to provide basic science laboratory and computer equipment and to make it more accessible throughout the tribal community.

The proposal should explain how the new equipment would be used. For example, explain how it would enhance the quality of academic programs, particularly in areas of science, engineering and/or mathematics and how it would interface with any existing equipment.

Proposals should address programs designed to enhance student participation in science, engineering and/or mathematics activities. For example, if there are existing or planned mentoring programs or other after-hours educational activities these should be mentioned in relationship to the new instrumentation. Moreover, if your program plans include pre-college students, these activities should be discussed.

The proposed instrumentation may be incorporated into other assistance programs to enhance broader science, engineering and/or mathematics education. For example, if teaching assistance from other schools, industry, or other institutions exists or is contemplated, it should be discussed. Moreover, if assistance programs supported by other agencies, e.g., NSF, are in place or planned, explain their relationship to your proposal.

In preparing the proposal, special attention should be paid to the evaluation factors listed below. All of these factors must be addressed in the supporting information. Failure to do so will result in a low score for this proposal and probably make it noncompetitive.

B. CONDITIONS

Instrumentation proposals requesting from \$20,000 to \$200,000 (total cost to DoD) will be considered. Proposals may involve more than one instrument; however, in such cases the requested instruments should have a common purpose. Renovations of existing facilities may be proposed if necessary to accommodate requested equipment.

Only one instrumentation proposal per institution will be accepted. If more than one proposal is received from a given institution, that institution will be required to designate one proposal to compete under this announcement. This will help assure that each institution's highest priority request gets full consideration, and it may enhance the number of institutions receiving awards.

Cost sharing is not required, but it is encouraged. Matching dollars or in-kind contributions demonstrate the institution's commitment to the success of the project. No formula is prescribed, but institutions are encouraged to provide partial funding and to seek funds from a variety of sources, particularly non-Federal sources. Thus, the total cost of the instrumentation to be acquired may exceed \$200,000 but the amount requested from DoD may not exceed this amount. Cost sharing is not a criterion for selection.

C. PROPOSAL CONTENTS

Proposals must be complete and self-contained and shall not exceed 20 pages. The performance period is expected to be 12 months with a start date of October 1, 2001. Proposals should include the following:

1. PROPOSAL COVER: Use Appendix C of this announcement, fully completed and signed. No other page or plastic sheet should precede this cover.
2. ABSTRACT: A summary (no longer than one page) that describes the instrumentation requested and the education enhancements that would be supported by the requested equipment.
3. SUPPORTING INFORMATION:
 - a. Describe how the proposed instrumentation would (1) enhance the quality of the academic program, particularly in the sciences, engineering and/or mathematics and (2) indicate the educational departments and other groups within or outside the institution that will use the equipment and other assistance programs that will benefit from it.
 - b. Indicate the number of students who would use the instrumentation or benefit from its use and whether or not this number is an increase over those in existing programs.
 - c. Indicate how the new equipment will interface with or upgrade other facilities and instrumentation currently available or planned.
 - d. Include the curriculum vitae of the principal investigator and other senior participants.
 - e. Describe any special circumstances regarding the acquisition or installation of the equipment. For example, does the current facility require improved electrical service? Will the existing telephone service meet the requirements of new computer equipment? What are the budgetary needs to meet such requirements?
 - f. Indicate the expected useful life of the equipment. Describe briefly the plan to service and maintain the equipment during its useful life, including source(s) of funds.
 - g. If training for faculty members on the optimum use of the proposed instrumentation is needed, this should be budgeted. Funds for extramural technical assistance may also be requested.

4. BUDGET: Provide a list of the equipment requested along with estimated costs, both per item and totaled. Indicate the proposed source(s) of the equipment and provide the name and telephone number of a contact at the source(s) or a website address that lists the equipment and its price. The budget should indicate how and to what extent the institution intends to share program cost. Include details about other assured sources of cost sharing. Installation cost of equipment and the cost of facility renovation to accommodate such equipment may be included in the budget. Also, contractor support for initial set-up, calibration, and other operational assistance may be included in the budget. The cost for continued operation and maintenance must be met by normal support mechanisms and are not to be part of the equipment budget. Salaries to operate the equipment and overhead are not appropriate for an instrumentation proposal.

D. EVALUATION FACTORS:

Instrumentation proposals will be evaluated on the following factors of equal weight:

- a. Impact of requested equipment on the science, engineering and/or mathematics educational programs of the TCU;
- b. Impact on students and the number of students who will use the equipment or will benefit from its use in the science, engineering and/or mathematics curricula;
- c. Degree to which the requested instrumentation will interface with or upgrade other programs and instruments and the impact relative to current capabilities;
- d. Qualifications of the faculty to carry out the educational program, including the use and maintenance of the instrumentation proposed for purchase;
- e. Budgetary realism and cost effectiveness of the proposal. Cost sharing is not required; however, the sharing of costs through monetary support or in-kind contributions affects cost effectiveness and could be a factor where two proposals are considered of equal strength in other respects.

IV. PROPOSALS

A. GENERAL

Institutionally approved, signed, and complete proposals must be received by 4:00 p.m. local time on Wednesday, April 11, 2001. An original and three photocopies of the proposal are required. Proposals received after the deadline will be handled in accordance with guidelines set forth in Appendix B.

To be eligible for consideration, proposals must bear a completed Proposal Cover (Appendix C). No other page or cover should precede the completed Appendix C. Proposals submitted in whole or in part by electronic media (e.g., computer disk, facsimile machine, electronic mail) will not be accepted.

Proposals must be typed and should not exceed 20 pages, including vitae and budget. The Proposal Cover (Appendix C) and Acknowledgement Receipt (Appendix E) are excluded from the page count.

The proposal and each copy should be fastened securely (e.g. stapled) in the upper left corner. Hard bindings and spiral bindings are discouraged as they impede efficient handling. The following guidance applies to all proposals under this solicitation:

A page is defined as 8 ½ x 11-inch paper, single-sided, not to exceed 66 lines of text, with one-inch margins, and a typeface of 10- or 12-pitch. Text may be single spaced.

The abstract and pages with graphs or charts shall be included in the page count. All pages should be numbered consecutively beginning with the first page after the Proposal Cover.

If proposals are received which exceed the allowable number of pages, only those pages up to the prescribed number (20) will be considered in the evaluation. Separate attachments such as institutional brochures, reprints, disks, or videotapes should not be submitted.

B. PROPOSAL SUBMISSION

The Army Research Office must receive proposals by 4:00 p.m. local time on Wednesday, April 11, 2001. Please note the addresses below and be careful to use the one that is appropriate for the delivery method you plan to use. Proposals delivered by commercial carriers are considered “hand carried” and no exceptions can be made to allow such proposals to be considered if, for any reason, they are received after the deadline. Proposers are advised that some proposals responding to past announcements were delayed during shipment and arrived after the deadlines, typically by one or two days. To decrease the probability that proposals will arrive after the deadline and thus be ineligible to compete, proposers are encouraged to schedule delivery to occur before the deadline date.

Please follow these instructions to ensure that your proposal reaches ARO on time:

Proposals being delivered by the U.S. Postal Service must use the Post Office Box address, as follows:

Army Research Office
ATTN: AMSRL-RO-RI (TCU 2001)
P.O. Box 12211
Research Triangle Park, NC 27709-2211

Proposals being delivered by Federal Express, UPS, or another courier service, must use the street address, as follows:

Army Research Office
ATTN: AMSRL-RO-RI (TCU 2001)
4300 South Miami Boulevard
Durham, NC 27703-9142

Phone: 919-549-4205
Point-of-contact: Jenny Haire
E-mail: haire@arl.aro.army.mil

C. NOTIFICATIONS

Acknowledgment of receipt of a proposal will be accomplished via the form at Appendix E. Self-address the form, affix postage, and clip the form to the original proposal (do not use staples or tape). Upon receipt of your proposal, the form will be completed and returned to you. No other acknowledgment will be provided.

Awards will be announced in late July 2001. The initial announcement will be made via a Department of Defense News Release, which will be posted at <http://www.defenselink.mil>. Shortly thereafter, each principal investigator will receive a personal notification letter.

Negotiations may be required for some awards. This process would involve an Army procurement official and a financial officer of the recipient institution or other official who is authorized to obligate the institution contractually. Please ensure that that individual's name appears in the appropriate section of the Proposal Cover (Appendix C), along with phone and fax numbers and e-mail address, if available.

All awards should be completed by September 2001.

D. GRANT AS THE AWARD MECHANISM

It is anticipated that all of the agreements resulting from this solicitation will be awarded as grants. The authority for grant awards is set forth in 10 U.S.C. 2358. The criteria for using these documents are identified in 31 U.S.C. 6304-6305. Grants are governed by the following regulations:

F. CERTIFICATIONS

All awards require certifications of compliance with national policy requirements. Statutes and government wide regulations require some certifications to be submitted at the time of proposal submission rather than at the time of award. Proposers, by signing and submitting a proposal with the required cover, Appendix C, are providing the certification at 32 CFR Part 25 regarding debarment, suspension, and other responsibility matters; the certification at 32 CFR Part 25 regarding drug-free workplace requirements; and the certification at 32 CFR Part 28 regarding lobbying. Full text of these certifications may be found in Appendix D.

¹ Data is reported to the Office for Civil Rights, U.S. Department of Education by responding institutions in the Fall 19 98 Integrated Postsecondary Education Data System (IPEDS) Fall Enrollment Compliance Report preliminary file submitted to both the Office for Civil Rights and the National Center for Education Statistics in the U.S. Department of Education. Percentage minority students is derived from reported total student enrollment (IPEDS line 29), whereas percentage Hispanic students is derived from reported total full-time undergraduate enrollment (IPEDS line 8).

Identification of minority postsecondary institutions by OCR pursuant to § 1067k(3), Education Amendments of 1998 to the Higher Education Act of 1965, where minority postsecondary institutions are defined as having minority enrollment at 50% or more of total enrollment. Identification of Hispanic-serving institutions pursuant to § 302(d)(1) of Public Law 102-325 (20 U.S.C. 1059c), most recently amended December 20, 1993, in § 2(a)(7) of P.L. 103-208, where Hispanic serving institutions are defined as those with full time undergraduate enrollment of Hispanic students at 25% or more of total enrollment.

² Historically Black Colleges and Universities are described in Amendments to Title III, § 301 of P.L. 96-374 (20 U.S.C. 1061), Higher Education Act of 1965, and most recently amended December 20, 1993 in § 2(m) of P.L. 103-208.

³ The designation of Tribal Colleges and Universities is covered under several Federal statutes. The Tribally Controlled College and University Assistance Act (25 U.S.C. 1801 et seq.) covers 25 postsecondary institutions where funding is provided by the U.S. Department of the Interior to those institutions where 50% or more of student enrollment is American Indian. The Navajo Community College Act (25 U.S.C. 640a note) identifies Dine College (Arizona) as a minority serving institution. The Carl D. Perkins Vocational Education Act (20 U.S.C. 2397f note) identifies United Tribes Technical College (North Dakota) and Crownpoint Institute of Technology (New Mexico) as minority serving institutions. The American Indian, Alaskan Native, and Native Hawaiian Culture and Arts Development Act (20 U.S.C. 440 note) identifies the Institute of American Indian Arts (New Mexico) as a minority serving institution.

APPENDIX B: LATE SUBMISSIONS AND WITHDRAWAL OF PROPOSALS

Proposals sent by registered, certified, or express mail not later than the second calendar day before the date specified in the solicitation for receipt of proposals will be considered for an award if the proposal is received before awards are announced (e.g. a proposal submitted in response to a solicitation requiring receipt of proposals by the 20th of the month must have been mailed by the 18th).

For proposals delivered by other than registered, certified, or express mail, Offerors are responsible for submitting proposals so as to reach the Government office designated in the solicitation by the time specified in the solicitation. Any proposal sent by other than registered, certified or express mail and received at the Government office designated in the solicitation after the exact time specified for receipt of proposals is "late" and will not be considered unless there is acceptable evidence to establish that it was received at the Government installation designated for receipt of proposals and was under the Government's control by the time set for receipt of proposals.

Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

Proposals may be withdrawn by written notice received at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.
